Professional Summary

Lead Solution Engineer and Pre-Sales Enablement leader with experience at Conga and Oracle, turning complex cloud, AI and business-process scenarios into clear business outcomes. Leads discovery, solution design, tailored demos and technical validations with technical and business decision makers across Enterprise, Public Sector and Higher Education. Builds reusable demo assets and enablement programs that help SE teams scale. Works closely with Product and Engineering as the voice of the customer. Experienced across Salesforce, AWS, Azure platforms, CPQ, CLM, eSignature, document automation and AI-driven contract analytics.

Core Competencies

Technical Discovery | Solution Architecture & Design | Proofs of Concept & Technical Validation | Product Demonstration | Cloud Platforms (Salesforce, AWS) | AI-Enabled Business Process | CPQ / CLM / Document Automation | Partner & Channel Engagement | Voice of the Customer | Competitive Positioning | Scale Enablement & One-to-Many Training | Executive & Industry Presentations | Public Sector & Higher Education

Experience

CONGA, Remote CA

Sr Sales Enablement Manager, Pre-Sales & Demo Excellence

July 2025 - Present

- Lead and scale enablement programs that improve SE delivery and product storytelling across regions and verticals, closing readiness gaps so demos stay consistent with sales motions.
- Build and customize reusable demo assets, scripts and frameworks that SEs use in early-stage customer engagements.
- Partner with Product Management, Product Marketing and Engineering to refine demo environments that showcase AI-driven capabilities, and bring field feedback back to shape the roadmap.
- Run group training, workshops or webinars for sellers and SEs

Lead Solution Engineer

April 2025 - July 2025

Senior Solution Engineer

September 2022 - April 2025

- Served as technical lead through the sales cycle, building credibility with customer technical and business decision makers, channel partners and internal teams to drive technical wins.
- Led discovery workshops and solution assessments that mapped customer business challenges to Conga's CPQ, CLM, eSignature and document automation portfolio.
- Designed and delivered custom solutions and technical validations on Salesforce and AWS, using automation and AI-driven insights to streamline document workflows for Enterprise, Higher Education and Public Sector customers.
- Acted as the voice of the customer with Product and Engineering, shaping AI/ML capabilities such as automated data extraction and predictive contract analytics.
- Addressed security, data-governance and compliance requirements for Public Sector and Higher Education buyers.
- Supported partner selling motions as a technical liaison with SI and channel partners.
- Captured competitive intelligence and shared positioning with Product and the field.
- Contributed reusable demo scripts, solution frameworks and best practices adopted by the global SE team.

- Presented Conga solutions at industry events including Mainstage at Conga's SKO and annual user conference, Salesforce Dreamforce & World Tour 2023, Revenue Operations Summit, ACC Conference and Conga Connect.
- Recognized as **Solution Engineer of the Quarter - Q2 FY25**

ORACLE CORPORATION, Austin, TX

Staff Customer Experience Solution Engineer

December 2021 - August 2022

- Contributed \$824,841 in net-new revenue across 17 transactions in FY2022.
- Led customer workshops, technical validations and deep-dive demos for mid-market and enterprise organizations.
- Designed, validated and presented Oracle CX solutions (Sales, Service, CPQ, Field Service, Commerce, Content Management), including product direction and complementary third-party integrations.

Associate Customer Experience Solution Engineer

March 2021- December 2021

CX Business Development Consultant

July 2019 - March 2021

- Qualified and developed opportunities across Oracle CX applications through account research, territory planning and industry campaigns.
- Led discovery conversations with operations, IT and customer-experience leaders, and partnered with sales teams on account strategy.
